STUDENTS ARRIVE HALF THOUSAND STRONG

HAWAII CADETS STAR AT CAMP

Camp Lewis Delegation Wins Everything Offered

By DANIEL MCGREGOR

Hawaii's twenty six representatives to Camp Lewis left Honolulu on board the transport "Somme" on May 26. Colonel Clarke was in command of the University of Hawaii unit. Mrs. Clarke accompanied the Colonel. Daniel Ainoa, Allen Brown Hung Wai Ching, Edwin Fernandez, Willie Wise, Theodore Searle, Thomas Murray, William Kaco, Walter Holt, George Groves, Daniel McGregor, Addison Kinney, Samuel Keala, Jorgen Jensen, Henry Tom, Walter Mihata, Thomas Maeda, Clarence Loo, Henry Iwata, Takeo Yamashita, Norman Ellis, and Shunma Hino were the cadets who repented Hawaii.

The transport arrived in San Francisco on the noon of June 1. Four days were spent at the Presidio Army Post. No military duty was performed during this time and the cadets were at liberty to do as they pleased. The entire group was present for an excursion to Stanford University on one of the days.

On Saturday, June 3, the men left Oakland on the 11:30 p. m. Southern Pacific train bound for Camp Lewis. The Hawaiian Department members arrived at Camp Lewis on Monday and were the first of the R. O. T. C. units to reach the summer training quarters of the Ninth Corps Area Units. Being ahead of schedule, time was spent in shooting practice.

Camp Lewis officially opened on June 18th with the following institution enrollments:

Cal. Institute of Technology, 34; U. of Cal. 71; U. C. (Southern Branch) 42; U. of Hawaii, 26; U. of Idaho, 11; U. of Montana, 6; Montana State College, 9; U. of Nevada, 9; U. of Oregon, 20; Oregon Agri. College 93; Pomona College, 14; Stanford University, 31; U. of Utah, 28; U. of Washington 28; Washington State College, 17; Oklahoma Agricultural and Mechanical College, 2; U. of Tennessee, 1; U. of Wyoming, 13; Alabama Polytechnic Institute, 1; Cornell University, 1; New Mexico (Continued on Page 3)

FRESHMEN HOLD BIG CONFERENCE

The annual Freshmen conference which was held at Kahala beach on September 12, with about 35 freshmen and about 15 professors and upper classmen attending, was the most successful one so far, according to those who were in charge of the program.

The opening address was made by President Dean, who, in part of his speech, emphasized the fact that University of Hawaii is not an institution where students come only to learn facts and how to earn easy money, but to learn to get along with others. Among other speakers of the day were Dean Keller, Dean Andrews and Dr. Kirkpatrick, all of whom gave friendly advice to the freshmen; Daniel Ainoa, president of the A. S. U. H. and of the Senior Class, who spoke of the two organizations of which he is president; David Yap, president of the U. H. Y.; H. W. Ching, president of the Junior Class; Percy Smith, president of the Sophomore class; Dwight Rugh, secretary of U. H. Y.; and John Young of Nuuanu Y.

Various games were enjoyed during the recreation periods between sessions of the conference. After an enjoyable lunch at noon University songs were practiced.

The day's program was brought to a conclusion by an inspiring talk on religion as a necessity to college life by Rev. Schenk of the Hawaiian Board.

Mrs. Frear Painfully Hurt In Auto Accident

University students were shocked this summer to hear that Mrs. Mary Dillingham Frear, a member of the Board of Regents, received painful injuries in an automobile accident on the mainland, when the car in which she was riding crashed into a moving train. The injuries were considered so serious that Mr. Frear took the earliest boat leaving Honolulu, so that he could be with Mrs. Frear.

We are glad to hear of Mrs. Frear's gradual recovery from her injuries. To both Mr. and Mrs. Frear, Ka Leo extends, on behalf of the students, our deepest sympathy and our sincere good wishes for a speedy and complete recovery.

DEAN ANDREWS WINS HONORARY DEGREE

The University of Hawaii was the indirect recipient of an honor degree this summer, when Dr. A. L. Andrews Dean of the College of Arts & Sciences received from Tufts College-Mass. the title of L. H. D. (Doctor of Humane Letters.)

This degree has been waiting Dr. Andrews for three years but because such honors are not conferred except when the honoree can be present in person, it remained for Dr. Andrews to attend the Commencement of Tufts on June 14, where, together with Jane Adams of Hull House fame and Louise De Koren Bowen, a distinguished Chicago philanthropist, the degree was awarded. Present upon this occasion also, was Alvan Tufts Fuller, Gov. of Mass., upon whom was conferred an L. L. D. (Doctor of Laws.)

Tufts College is co-educational has a student body of 2500, and is non-sectarian.

The hood insignia of this honor is lined in golden brown with a broad stripe of light blue across its surface. The hood itself is outlined in white significant of the College of Arts & Letters which conferred it.

The entire University of Hawaii, faculty and student body, appreciates the distinction thus awarded Dr. Andrews and joins in extending him very sincere congratulations.

The Varsity football team loses two regulars in "Fat" Young and "Fat" Nakamura, the former of whom has gone to the University of Washington, and the latter to Japan with the Asahi baseball team.

Dean Keller Greets University Students

I take pleasure in using Ka Leo as the means of conveying this message to all the members of the University. To the old students who have returned after three months of pleasure, vacation or work, or perhaps, a combination of both work and pleasure, I extend greetings. To the new students who have recently joined our University, I extend a most sincere welcome. We hope that you will immediately become one of us and we know that we are going to like you.

The University has a big year ahead of it and although, in mere numbers, we are much larger than at any previous stage of our existence, the need for every one to do his share is also greater than ever before. May we all unite in a spirit of helpfulness and co-operation and start the University year of 1926-1927 down the pathway of time with every student boosting for the Big Year.

ARTHUR R. KELLER.

MANY ANSWER GRIDIRON CALL

Prep School Stars Turn Out For Green And White Team

After a brief session last spring football practice resumed its course on September 9. More than thirty gridiron aspirants responded to the call for candidates, sounded by Head Coach Otto Klum and his worthy assistant, Carter Galt. The first few days were devoted to the redistribution of the available material and the committing to memory of signals. Then followed scrimmages and the execution of fundamental plays as emphasized by the Rainbow coaches.

The tentative lineup of the candidates follows:

Ends—W. Holt, A. Brown, B. Farden, Gerdes, D. Smith, Shikata, F. Steere, L. Ferreiro.

Tackles—Wrisson, Ainoa, Rice, Lambert, Leach.

Guards—Towse, Weight, Kaaua, McQueen, Jacobs, McCoy, Hakumasa.

Centers—"Buster" Holt, Wedemeyer, Lyman Dean.

Quarterbacks—G. Morse, Gurrey, Downs.

Halfbacks—Captain E. Fernandez, W. Fernandez, W. Whittle, Al Lemes, Jas. Shin.

Fullbacks—Kaco, Jacobson, Peterson, McFarlane.

Ends

The team is well supplied with wingmen. W. Holt and A. Brown of last year's "wonder" team are improving with each practice; while Farden and Gerdes, territorial sprint champions of 1925 and 1926 respectively, are going under punts like lightning. Donald Smith, ex-Mick star, Shikata, member of last year's championship Buff and Blue squad, F. Steere and L. Ferreiro of Kauai High are out every evening, aspiring to land a flank berth.

(Continued on Page 3)

AUSTRALIAN DEBATE TEAM DUE TUESDAY

A debating team of three graduates of the University of Sydney, Australia, will arrive in Honolulu next Tuesday, the 21st, for a week's stay, on their way to the Mainland, where they are booked for a debating tour of several of the leading colleges. While here, the Australians will be the guests of the Pan-Pacific Union.

As the announcement of their coming was made only very recently, there does not seem to be sufficient time to build a debating team to represent the University of Hawaii in a debate with the Australians while they are here. It is with keen regret that the University must give up this opportunity, as it is no common thing for a debating team to pass through Honolulu. In February, 1925, the noted Oxford University debating team passed through Honolulu, on their way to Australia, after a debating tour of North America, during which they debated forty six times. A team was selected here, and a very interesting debate on Prohibition was held at Mission Memorial Hall before a packed house. That was our first intercollegiate debate. A debate with the coming Australians would have been our second.

It is possible that a debating team can be formed among the younger lawyers down town. The Australians offer to debate on either side of any of four subjects. One of these is "Resolved, that democracy has failed." The Australian team is composed of three men who were outstanding in their collegiate careers, and who were picked as the cream of Australia's debating talent. They debated the Oxford trio last year, and have had considerable other debating experience.

President Dean Extends Greetings To Students

With the return of students the University is alive once more. Faculty and students alike are happy in taking up our common enterprise in the joy of resuming the old acquaintances and the anticipation of the new.

I am glad to welcome you all. I hope we shall have a profitable and enjoyable year together. With the increasing size of the student body I can no longer know each student personally, but I wish you to understand that I have a vital interest in each member of the University and hope that whenever it is possible you will give me the privilege of your friendship.

A. L. DEAN, President.

MIXER IS HELD TUESDAY NIGHT

A very successful program was enjoyed at the annual Get-together Mixer which was held in Hawaii Hall last Tuesday night, to help the students, particularly the new students, get acquainted with one another. The social was staged under the auspices of the University Y. M. C. A. with Percy Smith as chairman. More than three hundred students attended.

The program consisted of games and contests, singing of school songs, speeches and stunts. The opening feature was participated in by all. Each student was provided with slips of paper and pencils, and asked to get all the names possible of those present. Imogene Benton won the prize offered to the girl contestants, a beautiful Shaeffer fountain pen, while Charles Ault took the boys' prize, another Shaeffer pen.

Following this contest, a cone-blowing competition was held. Sam McGerrao, freshman, took the event, and won a toy balloon as a prize. This contest was followed by an elopement race, in which Martha Poepe and her partner won. Martha received a rolling pin as a prize.

The students then gathered on the front steps of Hawaii Hall, and enjoyed a program of stunts, songs and speeches. Martha Poepe led in the singing of Varsity songs, with Mrs. Paul Kirkpatrick at the piano. Norman Ault freshman, led in some yells.

(Continued on Page 4)

Dean Andrews Says Purchase Tea-Set

The first purchase of an Oxford freshman is a tea-set. During some seven hundred years or so the Oxford freshman has learned some things worth while.

Oxford is not to him an Education-factory, and he never once has thought of himself as raw material to be moulded by the educational machines into a standardized product, stamped with the proper degree. Rather he comes to college as an individual, who for a time is to make Oxford his home. Hence the tea-set. For the china and silver are not mere utensils needed in quenching one's thirst for tea. They are more than that, far more. They are the symbols of home and of hospitality. The freshman's college becomes his home, and in consequence he soon comes to feel that sense of comfort and of responsibility that a man feels in and towards a home.

I am happy to help welcome you new-comers to the University of Hawaii. I hope that you will all, in spirit at least, at once buy a tea-set.

ARTHUR L. ANDREWS.

FRESHMEN WIN LEAD WITH 200

Sixteen Hundred Students Form University of Hawaii

When registration closed on Tuesday afternoon, four hundred ninety one men and women were officially enrolled as regular students of the University of Hawaii. The Freshman class naturally took first place in numerical preponderance, registering one hundred and ninety three, or slightly over one-third of the entire enrollment. The Sophomores were second, with one hundred and thirty to their credit, the Juniors third with ninety seven, and the Seniors fourth with seventy one.

In addition to the regular students, several hundred were registered as special resident students. Add to these the special non-resident students, who are taking the extension department courses, and the total enrollment in the University of Hawaii swells to some sixteen hundred students. It is expected that the enrollment of regular students will be considerably augmented by the end of the first week, as late registrants are matriculating daily. It is very likely that the final registration of regular students will find considerably more than five hundred students enrolled in the two colleges.

A COSMOPOLITAN UNIVERSITY

The five hundred or so regular students now enrolled at this University are as cosmopolitan a group of students as could be found anywhere. In fact, it is generally conceded that the University of Hawaii has no rival cosmopolitan college of its size anywhere in the world. The students here come from many races and many nations, from both East and West, and from all parts of the earth. They come from various social ranks, and bring to one University the culture and traditions of widely different civilizations and peoples. And the most striking feature about it all is the spirit of peace and good-will that pervades in our University.

EXTRA-CURRICULA ACTIVITIES

With the commencement of this new school year, student activities of divers forms and varieties will again resume operation, with renewed vigor and enthusiasm. Opportunities for participation in these extra-curricula activities are numerous.

Every regular student is a member of the Associated Students of the University of Hawaii. This Association stands responsible for Varsity sports and University students publication, such as Ka Leo and Ka Palapala. The Association this year is headed by Daniel K. Ainoa, who is also president of the senior class. This is his fourth consecutive year as president of his class. The A. S. U. H. is our student government. Each student is a citizen, and has the opportunity and obligation to practice good citizenship. For good citizenship is the price of good government.

The Adelphai Club is the outstanding women's club on the campus, and is led this year by Margaret Pratt. The Adelphai Club has a record of consistent, genuine and effective service. It is an organization which every girl student would do well to join.

Y. M. C. A. DOING GOOD WORK

The Student Y. M. C. A. is a live organization, whose service to this university and to the local community is not always fully realized or appreciated. It is doing wonderful work in divers fields. Examine its records. Here is an organization that invites strong men, of noble purpose and upright character, who are not ashamed to profess religion and moral idealism.

The Dramatic Club has a record of achievement. It faces a year full of

FACING THE NEW YEAR

At the beginning of this new school year, let us pause to ask ourselves what should be the dominating purpose in all our activities throughout the year. Let us ascertain definitely the goal which we wish to attain during this year. Without a goal, and without the will to attain that goal, we drift. Alas for the student who drifts. It is easy to surrender oneself to the ebb and flow of the tide. But what a price we must pay for drifting—in lost opportunities for growth and achievement. Time is relentless in its onward sweep. We live this life but once. Let us live fully and abundantly, with a purpose firm and true.

College life, in both its curricula and extra-curricula activities, offers vast opportunities for rich self-development and self-expression. Give of your best to the University, that your fellow students may profit from your thought and action. And pick of the best that the University offers, that you may strengthen your own mental and moral fibre. We are the University. As a fount of water cannot rise above its head, so the University cannot rise higher than the limits of our own mental and spiritual heights. How high shall our growth be this coming year?

KA LEO STARTS SIXTH YEAR

On September 13, 1922, the first issue of Ka Leo o Hawaii, then called The Hawaii Mirror, was published by a group of interested students, led by Henry Bindt and Gwenfread Allen. After two months of successful experiment, the new weekly paper became an official publication of the Associated Students of the University of Hawaii. The title "Ka Leo o Hawaii," which means "The Voice of Hawaii," was suggested by Edwin Bryan, Jr. '20, and was chosen by the student-body in a special election, at which time many names were voted upon.

Five years have passed and today we begin the sixth year of Ka Leo. We are very fortunate this year to have a class in Journalism to take over, in large measure, the work of publishing the paper. Work on Ka Leo will be counted towards credits in the journalism course. We hope, by thus having the work of publishing the paper entrusted to this class, to be able to establish and maintain a high collegiate grade weekly.

"OUR POLICY"

It is well to outline the editorial policy of Ka Leo at this time. In the first place, we shall endeavor to present, week by week, a complete and accurate account of all University news. We consider this to be a very essential function of our paper. As far as possible we shall try to present news as news, stripped of superfluous personalities and attempts at fancy writing. A second function of Ka Leo will be to interpret news through its editorial columns, whenever interpretation seems pertinent. Another function of Ka Leo, as of any other newspaper, is to act as an advertising medium.

In addition to these functions, which may be termed passive in nature, Ka Leo is expected to have an active influence in student thought and action on our campus. Ka Leo is not intended to be simply a cold, matter-of-fact bulletin. It is intended to be a journal of opinion as well. Our policy is to stand firmly for freedom of expression of responsible opinion on any controversial matter. We do not mean that we shall publish everything that is submitted to us. We must practice editorial discretion. But we shall not deny to any one the privilege of expressing his opinion on a matter of interest to the student-body, provided he observes proper respect for duly constituted authority, and does not tax too severely the canons of good taste in diction. Ka Leo is the University's paper. And we want it to be representative of the University, its thinking and its activities.

WHAT IS YOUR PHILOSOPHY OF EDUCATION?

Ka Leo will be very glad to entertain expressions of opinion from both students and faculty as to their philosophy of education. Our editorial page next week will be thrown open to a discussion of this topic, although opinions on other matters are always welcome. What and why is education? What and why is college? What is your ideal of a college? What should be the aims of a college curriculum? What do you think of our present lecture type of classroom work? Is college education intended to develop a group-type or an individual-type? Why are you in college? What developments in collegiate curricula do you predict, or desire to see come true? Place your written opinions in the Ka Leo copy-box by next Monday. Don't wait for "the other fellow" to express his opinion. What do **you** think? That's the important question. Answer it.

Freshmen Take Strong Lead With 200

(Continued from Page 1)

untold possibilities, and, if properly led, it should have a very successful year. There is a wealth of dramatic material in the student-body. Membership in the club is open to all who are interested.

The Hawaii Union is affiliated to the Oxford Union, of Oxford University. This is a forensic organization, whose purpose is to discuss and debate vital student problems and other important issues, with a view to developing the ability to speak fluently and logically. Membership is select, and admission is by majority vote of the members. Students must show an active interest in forensics and in University affairs before they can be considered as applicants for the Union.

HAWAII QUILL ACTIVE

Hawaii Quill, the literary society, has had an active part in campus affairs, and has proved a profitable investment to the members, in view of its interesting meetings. Among the Science clubs, the Aggie Club has shown the most pep and vigor. Last year it sponsored the first University Day, which was a great success, and which will probably become an annual event. The Tennis Club also had an active year, and prospects for this year are very bright.

Theta Alpha Phi is an honorary dramatic society, the only Greek-letter organization on the campus. Membership is won by fulfilling special requirements in dramatic art. The Engineers' Club and the Pre-Medical Club are obviously for engineering and pre-medical students respectively. The Freshman Forum is a forensic organization for new students, organized last year under the auspices of the Hawaii Union. The Commerce Club was organized last year for commerce students. Ka Pueo and Hui Lokahi are not officially recognized as University organizations. Membership is select, the activities social.

President Ainoa Advises New Incoming Students

As president of the Associated Students of the University of Hawaii, I take this opportunity to welcome all the Freshmen and new students into the A. S. U. H. My advice to the Freshmen would be to get rid of all high school jewelry, and forget all petty grievances and differences which may have existed in prep school athletics; and all work and strive for the same cause, which is to make the University a greater and better institution. In closing, I would advise the Freshmen to observe and obey all the rules of the A. S. U. H. and to come to all of the meetings of the Organization and learn what's going on, for it will never hurt any one to know what's going on in this organization; on the other hand, it might do them a lot of good.

Sincerely,
DANIEL AINOA.

MAKE ADS COUNT

The advertisements that appear in Ka Leo materially help to support the publication of this paper. We therefore earnestly urge our readers to patronize the concerns who have had enough faith in our University to place their ads in Ka Leo. Mention the Ka Leo to them when you do patronize these concerns, and show them that their advertising in Ka Leo counts.

"ENTER ONLY ON BUSINESS"

The A. S. U. H. office in Hawaii Hall was set aside by President Dean as an executive office for the officers of the A. S. U. H. and for the editorial board of Ka Leo o Hawaii. Students are cordially requested not to enter the office except on business. The A. S. U. H. office is not intended to be a rendezvous for loafers. Dr. Dean has authorized the president of the A. S. U. H. to take whatever measures are necessary to enforce this notice. The students will kindly cooperate as far as possible.

THE SPIRIT OF THE BULLY

Every now and then we hear of five or six or more Sophomores pouncing on some Freshman and throwing him into the indescribably filthy sheep-dip, for having violated one of the so-called "rules" laid down by the second-year men. The question comes then to our mind: "Wherein does this differ from any other manifestation of the spirit of the brute, the bully?"

COLLEGE: A PARAPHRASE

(From the Daily Maroon of Chicago)

So we members of the American Universities are the final, highly polished product of an ultra-modern civilization! A pleasing conceit, but unfortunately, untrue. Instead we lay claim by our actions to the title of anachronism. Our century is not the early Twentieth, but the late Seventeenth.

"In England, 1660 marked a rather wide adoption, toward life in general, of that attitude which, as distinguished from the Chivalrous view, is describable as Gallantry. I have read that the secret of Gallantry is to accept the pleasures of life leisurely, and its inconveniences with a shrug;—being thoroughly persuaded that God is kinder than the gentleman would regard as rational.

"In fine, the gallant person is a well-balanced skeptic, who comprehends that he knows very little, and probably amounts to somewhat less, but has the grace to keep his temper. . . ."

In American Universities, 1900 marked a rather wide adoption toward life in general, of that attitude which, etc. Do we, while at school, consider life to be a somber tragedy, or a realistic novel? Why, not a whit. It is a grand comedy, wherein all the parts are cast

for our special delectation. We are momentarily scholars, politicians, athletics, and men of the world. Do we not accept our pleasures leisurely; and surely our inconveniences, classes, flunk notices and such, we accept with a shrug. But elsewhere in the creed of Gallantry it is stated that in spite of the comprehension of his general worthlessness the gallant person will admit to no one, and least of all to himself, this fact. So we have an air of fine sincerity about our fraternities, and our campus activities, and our athletics, that defies attempts to discover the true attitude.

The Gallant Cavalier carefully avoided the semblance of serious thinking, but he could, and did, discourse charmingly of the writing of his day, he knew the light music of his contemporaries, he attended the theater religiously, and his table wit has never been surpassed. In short, of a gentleman it was everywhere expected as the requisites of social success, to make improper advances gracefully; and to dress not more than a month behind the Court of Fontainebleau, to fence well, and to say resistlessly in French that which he ought

The gallant collegiate would be ostracized if it were known that he considered his classes other than horrible bores, but he does know the inconsequential and some of the important writing now being done, he talks understandingly of jazz, and his line is absolutely unique. In short, of a college man it is everywhere expected, as the requisites of social success, to use for indecent ends a line whose charm is equalled only by its effectiveness; and to dress not more than a month behind Harvard and Yale; and to be enough of an athlete to make an occasional touchdown; and to tell resistlessly stories that he ought not to tell at all.

Furthermore, of Congreve's Women it is said, "For they are in everything preeminently adorable, these mendacious, subtle, pleasure loving, babbling, peneous, volatile, brave, witty, and sumptuous young jill-flirts who rule in the Utopia of Gallantry. So all true cobnoscanti must stay forever enamored of them; of their alert eyes, their little satin-slipped feet, their saucy tip-tilted slippers, their saucy tip-tilted noses, their scornful little carmine mouths and their glittering restless little hands for they were all "mignonnes." And there is the co-ed. She, too, abides by the rule of Gallantry, but with this difference. She is never so misled by her emotions that she forgets her creed; the men sometimes are.

THE OLD LIE

—Edward Cope

If, in some smothering dream, you, too,
could pass
Behind the wagon that we flung
him in,
And watch the white eyes writhing in
his face,
His hanging face, like a devil's
sick of sin;
If you could hear, at every jolt, the
blood
Come gagling from the froth-cor-
rupted lungs,
Bitter as the cud,
Of vile, incurable sores on inni-
nocent tongues—
My friend, you would not talk with
such high jest
To children, ardent of some des-
perate glory,
The old lie—"Dulce et decorum est,
pro patria mori."
*(Sweet and fit it is to die for one's
country.)

SPORT SECTION

VARSITY FOOTBALL
TEAM WORKS HARD

(Continued from Page 1)

Tackles

Wriston, Ainoa, and Rice, who have already served in the football campaigns of the "Fighting Deans" are training hard to retain their positions. Lambert of St. Louis and Leach are the only "plebes" who are attempting to displace the veterans.

Guards

"Bull" Towse and "Red" Weight, sub-center last year, are practicing faithfully to fit themselves for the coming gridiron battles. A. Kaaua has so far not shown out for practice, but will be a conspicuous figure at Cooke Field within the next few days. McQueen, ex-St. Louis star, is a fighter. He has the reputation of being as "tough as nails". Jacobs, McCoy and Hakumasa are turning out with the spirit of making the team this year, if not, the next year, and if they should fail again, the following year.

Centers

"Buster" Holt, who tips the scales at 195, is endeavoring to fill the shoes of Jim Cruickshank. Ernest Wedemeyer of Kauai High and Lyman Dean, who won his spurs at Punahou, are also trying out for the pivot position.

Quarterbacks

Grant Morse is being groomed for the quarterback position, left vacant by the departure of his elder brother, John D. Kicking ability seems to be a family heritage for Grant is proving to be proficient in the art of punting. Gurrey, who tried out at end last year, is barking the numerals in a commendable fashion. Downs is also a promising candidate for the signal-caller's position.

Halfbacks

Captain Eddie Fernandez, the only returning member of the nationally famous "Four Horsemen of the Pacific" is just as good as ever. He is expecting to duplicate, if not surpass his past performances on the gridiron. W. Fernandez, Eddie's younger brother, W. Whittle, and Al Lemes are developing into ball-toters of the first caliber. Jas. Shin, a husky lad from the Hermit Land, is the lone Peagreener trying for a halfback job.

Fullbacks

"Sonny" Kaeo, who played on the Deans forward wall last year, is being converted into a fullback (one of the many illustrations of Klum's ability to locate talents). The former guard is fast becoming acquainted with the duties of a backfield performer, and ere the season closes should develop into another Lionel Brash. Jacobson and Peterson of Punahou, and McFarlane are training diligently to become guardians of the fullback station.

As aforementioned the list is only temporary. During the next few weeks the process of elimination and redistribution will be continued. A linesman may be converted into a backfield player and vice versa. However an "idea" of the 1926 Rainbow model can be obtained by watching the "Fighting Deans" on October 2, when they scrimmage against one of the Inland Post elevens.

Willie Wise '26 and "Pump" Searle '26 are official coaches of the Kamehameha high school football team this fall. Prospects for a championship team from Kalihi are naturally bright.

Louis Collins '26, Cenie Hornung '26, Ella Nora Ryan '26, and Chisato Hayashi '25, are teaching at the Kona-waena Junior High School. "Rosebud" is in charge of athletics.

VARSITY TENNIS
PROSPECTS BRIGHT

Tennis is rapidly coming to the fore in university athletics. Last year the Rainbow Racquetters enjoyed a successful season, culminating with a trip to Maui. However, with all the veterans of last year, excepting the Kerns brothers, back in harness, and with the addition of stellar racket-wielders like Maitland Dease, Karl Mirikitani, Shitamae, and Harold Crawford, this season should be a bigger one than last year. Those returning to serve under the colors of the Emerald and White include: Harold Oda, manager, Kaneda, captain, T. Kawahara, university singles champion, Tsushima, runner-up, W. Dease, E. Cushnie, Percy Lydgate, S. Watanabe, M. Black, David Yap and D. Olmstead. Among the newcomers Maitland Dease is the outstanding player. Paired with his elder brother, Warren Dease, Maitland captured the junior dougles championship of the territory. Shitamae, Karl Mirikitani, and Harold Crawford saw service with the Black and Gold tennis team.

PLANS ANNOUNCED

The officers of the tennis club have already announced their plans for the coming season.

1. Negotiations are to be made with tennis officials in Hawaii and in Kauai for a tennis trip to either one of the islands.

2. Application for membership in the inter-club Tennis League is to be sent to the proper authorities.

3. An elimination tournament in the singles and doubles to determine the "personnel" of the varsity team is to be held in the near future.

The personnel of the university tennis club is as follows: Percy Lydgate, President; D. Olmstead, vice-president; D. Yap secretary-treasurer; Harold Oda, manager; and K. Kaneda, captain.

Dr. Tasuku Harada, Professor of Japanese Language and History, now on sabbatical leave of absence, is lecturing and studying in Japan, accompanied by Mrs. Harada and a son, Sam. He will return to his chair in the second semester.

Luigi Giacommetti enters the University from Punahou as a Freshman. During this past summer he roamed the wilds of Olaa in a dilapidated Ford, busy measuring cane-growth.

George Sakamaki '26, who was offered a position on the faculty of Doshisha University this summer, has decided to decline the offer, and is now matriculated as a graduate student at the University of Wisconsin, majoring in journalism.

Lt. Col. George H. White of Oregon Agricultural College was Camp Executive Officer. He was assisted in his work by the professors and asst. professors of military science and tactics of the Ninth Corps Area Units. Under the associated plan several regular army were the R. O. T. C. Camp.

Colonel Clarke was the recreational and athletic officer of the camp. It was due to his efforts and enthusiasm that the R. O. T. C. was able to represent the Army in the Army-Navy Track and Field meet and the Army-Navy Swimming meet held at Tacoma. As a result of the meet between these two divisions of our armed forces three cups were gained. The swimming cup, track cup, and the relay cup were competed for by the different colleges at camp. The University of Hawaii was given the swimming cup because no other college would compete with them. The track cup was won by Hawaii. On a toss up for the relay cup Hawaii lost the cup to Oregon Agricultural College.

In the military tournament Hawaii was successful in adding another trophy to her collection.

In the rifle match, Hawaii made a very high average. Every man on the team qualified for a medal. In this event Hawaii won the "Warrior of the Pacific" and the inter-collegiate match trophy for the first time. Because Hawaii was ineligible for the "Doughboy of the West" it was presented to Washington State College.

The individual competitive drill was won by three of Hawaii's cadets. Thomas Murray took first place followed by Hung Wai Ching and William Wise respectively.

AGGIES AT WAIPAHU

Messrs. Das, Jain, Kamm, Naramoto, Teho, and Yap, all students of Sugar Technology spent the first six weeks of their summer vacation at The Oahu Sugar Co., at Waipahu in order to fulfill part of the requirement for graduation in that course. During their first three weeks stay there, while the mill was still operating they got a good insight into the different manufacturing operations. During the latter part of their stay, when the mill was being overhauled they were given a chance to see the inner parts of the machinery used in the making of sugar cane. From the educational as well as from the social point of view their work there was a great success.

Dan Tsurutani '28 and George K. Ching '28 are enrolled as Juniors at the University of Washington. During this past summer they worked in a salmon cannery in Alaska, to raise enough funds to make both ends meet during the coming year.

PERSONALS

Shigeo Soga '28 is registered as a Junior at the University of Missouri, where he is majoring in Sociology. Following his graduation he will major in journalism, following his father's footsteps. Soga was Managing Editor of Ka Leo last year.

Sam McGerrao of Puunene, Maui, enters this University as a Freshman this fall. He speaks Japanese fluently, having spent 6 years in Japan, where he graduated from Keio high school.

A meeting of the Student Y. M. C. A. Executive council was held at Damon Island, Saturday, the 11th, at which time the year's program was outlined, and various projects started. A very successful year is expected.

Repairs have been made on the new tennis courts, and they are now in perfect condition for tennis players.

Mitoichi Sadayasu '29, who made a very high scholastic record as a Freshman here last year, has matriculated at Oberlin, where he will major in Sociology and Economics.

McKinley High sends her 1926 valedictorian and salutatorian to the University this year, in Misayo Ishizaki and Helen Chun. Misayo is a Friend Peace Scholarship student.

Fuji Miyazaki '29 spent her summer vacation at her home in Kona. She directed three Daily Vacation Bible Schools in succession, over a period of eight weeks, bringing the glad tidings of Christ to hundreds of children. She is in her second year at the University, and is also matriculated at the Honolulu Theological Seminary.

The Freshman Handbook this year was edited by Margaret Pratt, president of the Adelphai Club, under the auspices of the Associated Student of the University of Hawaii, the Student Y. M. C. A. and the Adelphai Club. The Handbook is well put up, and serves a distinct need. Every matriculating Freshman was presented with a copy of the book, as a present from the three organizations.

Justino Pagdilao comes to the University of Hawaii from the Philippines this fall, matriculating as a Freshman. He is also a student at the Honolulu Theological Seminary.

The engagement of Margaret Pratt '27 to Arthur Wriston '28, which was announced recently, came as a pleasant surprise to their many friends. The engagement is the happy culmination of a college romance. Margaret has been prominent in various student activities, especially in dramatics and in women's sports. She is president of the Adelphai Club this year, and is one of the best-liked students in the entire school. Wriston is often referred to as "our Greek god" because of his splendid physique. He plays tackle on the Varsity football team, and also goes in for boxing and track.

David Makaoi, secretary of the Student Y and chairman of the University gospel team this year, reports a very interesting summer, including a trip to his home at Waipio, Hawaii.

For Hair That Won't
Stay in Place
Try This

Well-groomed boys and girls keep their hair smooth, lustrous, always in place—with Stacomb. It has made straggly hair unnecessary. Fine for bobs and after shampooing. Non-greasy.

Many New Courses Offered This Year

Several new courses have been added to the curriculum this fall, and important changes in schedule have been made.

Mr. Tilton offers a course in Commerce 280, on International Law, open to both Juniors and Seniors. This is given in lieu of the course in Salesmanship and Merchandising. It will give the elements of International Law with a decided emphasis upon Foreign Trade. The class will meet at 1:30-2:30 p. m. on Monday, Wednesdays, and Fridays. Three credits.

A new course, Philosophy 152, or Introduction to Philosophy, is offered by Professor Myrick. This course is required to be taken by all Sophomores in the College of Arts and Sciences. The class meets at 8:30 on Mondays, Wednesdays, and Fridays. Three credits.

English 140, or Journalism, is offered by Prof. Baker. This class will take over the greater part of the work of publishing Ka Leo. It meets on Mondays, Wednesdays, and Fridays at 9:30. Three credits.

Prof. Armstrong offers Education 270, or Principles of Vocational Education. This course will study what vocational education is; the development of vocational education, with special reference to agriculture; organizations adapted to this type of work; organizations for vocational education in Hawaii. Required of those preparing to teach vocational agriculture. Three lecture recitations per week. First Semester, 3 credits.

In Philosophy 200, or the History of European Philosophy, Professor Myrick will trace the development of European thought from the earliest of Greek thinkers to our own day; its relations to the social, political, and delicious life of the times; the origin and early development of scientific ideas; incidental comparison will Eastern thought. Outside readings will be chiefly from the writings of the great philosophers. Lectures and recitations; reports and conferences. Open to all Juniors and Seniors in the College of Arts and Sciences who have passed in Logic with grade Corbetter. Three credits.

Philosophy 152, Introduction to Philosophy, will have two aims, of which the first is to acquaint students with some of the more important philosophical problems and the answers which some of the more important philosophers have given. Among the questions raised will be the following. Is matter or mind the only reality, or are they both real? What is the relation of our minds to our bodies? Are our wills free, or are they as completely determined as anything in the world of science? Is the world governed solely by material causation, or by purposes? Is there a God, and can we hope for immortality? Does our knowledge come from our sense alone or does it rather come from reason?

The second aim of the course will be to find a place in life for both science and religion. The course will try to show that science, instead of con-

STUDENT-GOV'T IS ABANDONED

Men students have abandoned the job of self-government at the University of Wisconsin, after 20 years of trying to find a way to administer the discipline power granted to them by the faculty and the Regents.

The Student Court submitted its resignation in a body at the recent annual meeting of the Board of Regents and the board approved the recommendation to discontinue the court. Beginning with the fall semester in September the full control of discipline of men students will pass back into the hands of the faculty.

Behind this event is an interesting history of 20 years of effort at self-government. But while the men have failed in their effort, the women of the university have built up a Women's Self-Government association that is becoming stronger each year.

The Student Court was the first formally chartered self-governing body of Badger men students. It was the outgrowth of a series of informal Student Conferences set up by President C. R. Van Hise early in his administration, some 20 years ago. Following some moves of this informal body in 1911 and 1912 to intercede with the faculty on behalf of students disciplined for infractions of college rules, mainly hazing, the Student Court was chartered by the Board of Regents with the duty "to maintain good order throughout the male student body, and to enforce university regulations within its jurisdiction."

At the same time a Judicial Committee with similar powers and duties for women students was chartered.

The student government movement next developed the University Senate which was chartered in 1916. This body still is in operation as "the general representative and legislative body of the male students of the University of Wisconsin," but has never been active in vital methods of discipline.

Steady decline of student interest in its legislative and judicial organizations of recent years has culminated in the disbanding of the Student Court. It is agreed on the campus that the court died of inanition, and that the question of self-government generally has ceased to interest the men students. —From U. of Win. Press Bulletin, 8/18/26.

FROSH GIRLS HAZED

The Freshmen girls were initiated yesterday. They were forced to come to school in abbreviated dresses, and were made to perform various stunts, including skipping-the-rope, singing, and running in relay races. A committee of upperclasswomen took charge of the program.

tradicting all religion, is quite consistent with a view of reality which will at the same time satisfy the religious instincts of man. Lectures and recitations; papers and conferences. 1st semester 3 credits.

Three Hundred Attend Varsity Mixer Tuesday

(Continued from Page 1)

President A. L. Dean addressed the students in a speech of welcome. During the course of his address he outlined what he considered to be his ideal of a college. In part he said, "My ideal of a university is one in which no attendance records are kept and no grades are issued; a university to which students come to learn what they can for themselves, without any compulsion of any sort." Dr. Dean deplored the mechanistic philosophy of education prevalent among college students today. Education is not a matter of credits gained or grades received. The true student comes to the university to develop as much as possible his inborn capacities, and to augment his mental equipment, and to properly fit himself to be a useful member of society.

Dean Arthur R. Keller reviewed some of his interesting reminiscences of the early years of this institution. He spoke of our first football team, back in 1909, composed of thirteen men who "probably knew a football when they saw it." The team won the first game it played, 7 to 6. The Varsity colors, Green and White, first flew in the form of pennants at this game.

Dean Arthur L. Andrews exhorted the students to "be friends" with one another, and with the faculty. He pointed out the fact that this University has no corresponding type of school anywhere in the world, and stressed the importance of maintaining a strong spirit of cosmopolitan camaraderie. He also urged the Freshmen to forget their prep-school loyalties and animosities, and work together as a united body for a bigger and better University of Hawaii. Above all, he urged, "let's be friends."

Short talks were also given by Coach Otto Klum and Captain Eddie Fernandez, who spoke of the football prospects for the fall, and urged the students to back the team to the limit. It will be a difficult job to build up a team which can rival the Varsity team of last year and the year before, but it is not an impossible task. The coaches and football ball team need the support of the student-body, not only at the games but at practices.

ADELPHAI CLUB ENTERTAINS GIRLS

The Adelphai Club gave its welcoming tea for the Freshman girls on Tuesday afternoon, September 14, at Margaret Pratt's home in Nuuanu. As soon as the guests arrived, an introduction game was played in the form of the Virginia Reel. After that initiation stunts were in order. The Freshman girls had to eat Castor Oil sandwiches and a concoction of fudge, soda, and salt, and then walk before a line of upperclassmen, to be spanked.

SOPHOMORES WIN OVER GAME FROSH

The annual Freshman - Sophomore tussel was held on the campus yesterday afternoon, with the second-year men winning two out of three events, namely, the sandbag race and the flag-rush. The Freshman defeated the husky Sophs in the tug-of-war, but their lack of organization and proper technique lost them the other two matches. The Sophs captured 13 bags to 9 for the Frosh, with 3 bags being contested for at the whistle. The flag rush was a rather impossible proposition for the Freshmen, who nevertheless gamely assaulted the Sophomore defense from whistle to whistle, for twenty-five minutes. In the last desperate minute, two Freshmen managed to attach themselves to the pole, above the heads of the struggling men beneath, but the slippery pole offered no foothold for them, and the fight was lost.

The University Band held its initial meeting of the year last Wednesday morning. Dewey Robbins, director of the Band, says he has some mighty good pieces for the coming football games. Enthusiasm ran high at the opening meeting of the Band, and a highly successful year is expected.

The R. O. T. C. Crack Drill Squad presented their special drill. It was well executed and drew loud plaudits from the audience. Prof. Kirkpatrick and Mrs. Kirkpatrick offered a special musical selection, and also an encore number.

Doshisha University Invites Student Profs

Four or five young American college graduates of Japanese ancestry will be invited to chairs on the faculty of Doshisha Japan, beginning with the next school term starting in April, 1927, according to word received here from Dr. Tasuku Harada, former President of Doshisha University, and now head of the Japanese department at the University of Hawaii. Dr. Harada is in Japan on sabbatical leave, and will return to Honolulu in December to resume his professional duties in the second semester.

Dr. Harada writes that the Board of Directors of Doshisha University have authorized President Ebina to appoint four or five American college graduates of Japanese ancestry to be members of Doshisha Faculty, teaching English, American History, and kindred subjects. George Sakamaki who graduated from the University of Hawaii last June, was offered one of the appointments, but he decided to decline the offer, and is now at the University of Wisconsin. Kensuke Kawachi '25, and Shunzo Sakamaki '27 have also been offered the appointments, and are considering the matter at present. Kazuo Kawai, Stanford graduate this year, has also been offered an appointment.

REVOLT — — Harry Kemp

Assent, and the world moves with you,
Revolt, and you walk alone,
But sweet it is both night and day

To know that your soul's your own.

That the open sky is above you,
That your ways are free and bold,
That you're not one of the timid sheep

That cower in the fold,
—From "The Cry of Youth."
